

OUTCOMES MATTER

Mrs. Shirley Hill admitted to Pecan Bayou and Rehab on January 24, 2024, following a recent surgery and infection. She presented with significant increased weakness, decreased lower extremity sensation, and decline in functional mobility skills. During her stay at Pecan Bayou, she received Physical Therapy, Occupational Therapy, and Speech Therapy.

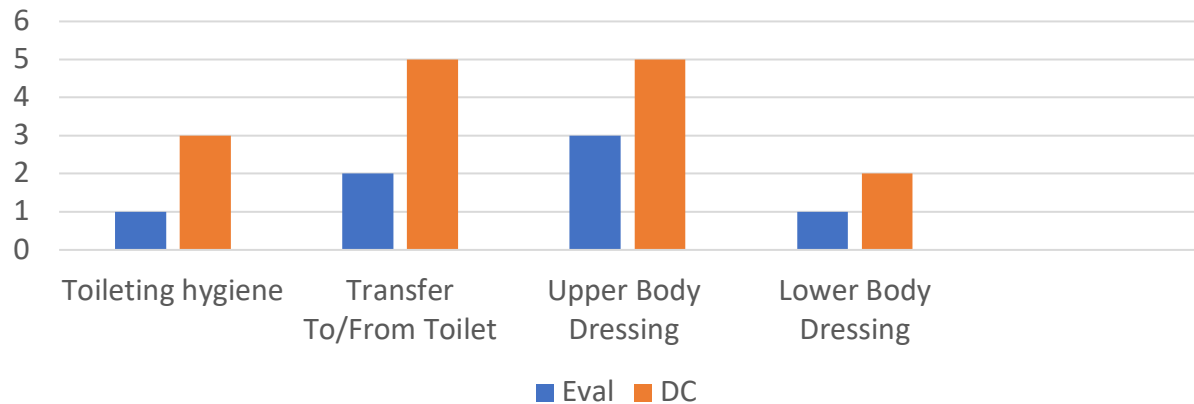

PT focused on improving bed mobility, transfers, lower extremity strength, and gait. OT focused on improving toileting, dressing, and hygiene/grooming tasks. ST focused on communication/memory recall strategies.

As she participated in therapy sessions, she began to show progress with standing tolerance and transfers. Lower extremity strength continued to increase. She eventually started walking in the therapy gym and hallways. Eventually she was able to perform car transfers and go out on short outings.

Mrs. Hill made great progress with therapy while at Pecan Bayou and was able to discharge home on May 7th, 2024.

Occupational Therapy

MDS Section GG Functional Scores

06 - Independent

Completes the activity by him/herself with no assistance from a helper

05- Setup or clean-up assistance

Helper sets up or cleans up; patient completes activity. Helper assists only prior to or following the activity.

04 - Supervision or touching assistance

Helper provides verbal cues and/or touching/steadying and/or contact guard assistance as patient completes activity. Assistance may be provided throughout the activity or intermittently.

03 - Partial/moderate assistance

Helper does LESS THAN HALF the effort. Helper lifts, holds, or supports trunk or limbs, but provides less than half the effort.

02 - Substantial/maximal assistance

Helper does MORE THAN HALF the effort. Helper lifts or holds trunk or limbs and provides more than half the effort.

01 - Dependent

Helper does ALL of the effort. Patient does none of the effort to complete the activity. Or the assistance of 2 or more helpers is required for the patient to complete the activity.
